

Surge Protector NVS-005VD

Features

- Surge protection device for video transmission via coaxial cable and data transmission via twisted-pair
- No power supply needed

| Specifications | Description |
|----------------------------|------------------------------------|
| Max. Surge Protection Time | 100 ns |
| Protection Level | 4 kV |
| Surge Life | 300 surges of 100 A/s |
| Normal Resistance | 10 000 MOhm |
| Surge Resistance | Approx. 0 Ohm |
| Bandwidth | 0 ~ 10 MHz |
| Insertion Loss | < 0.2 dB |
| Connector | Screw terminal & BNC |
| Operating Temperature | 0° ~ 55°C |
| Dimensions (mm) | 87 (L) x 67 (W) x 27 (H) |
| Weight | 140 g |
| Cable Type | Coaxial (video) & CAT 5 UTP (data) |
