

## Converter NV-001RSC

| Specifications        | Description                               |
|-----------------------|---|
| Device Type           | RS-232/RS-485 converter                   |
| Data Input            | RS-232 (D-Sub 9 Pin)                      |
| Data Output           | RS-485 (screw terminal)                   |
| Transmission Type     | Half duplex, 2-wire, differential signals |
| Transmission Distance | Up to 1200 m                              |
| Operating Temperature | 0°C ~ 55°C                                |
| Relative Humidity     | 0% ~ 95%                                  |
| Dimensions (mm)       | 73 (L) x 33 (W) x 16 (H)                  |
| Weight                | 25 g                                      |
| Cable Recommended     | CAT 5 UTP Cable (Ø=0.5 mm)                |
