NOVUS

Professional system for remote body temperature measurement with mask detection function

NVIP-2H-8912M/TS SET

The set consist of:

- 1 x IP camera with body temperature measuring feature NVIP-2H-8912M/TS
- 1 x Black body calibration unit NV-BBU
- 1 x N Control 8000 software
- 1 x ceiling mount NVB-BRTS1 (for the camera)
- 1 x ceiling mount NVB-BRTS2 (for the calibration unit)

Important features:

- up to 16 people simultaneous measurement within less than 1
- detection of people not wearing masks
- measuring accuracy up to +/- 0,3 ° C
- reducing number of false alarms thanks to VCA camera measure temperature only in area when face is detected
- measured temperature value is assigned to specific person, captured image and temperature value are both stored in a database in order to carry out further analysis

Camera specification is available here: NVIP-2H-8912M/TS

Black body calibration unit specification is available here: NV-BBU
