3 MPX IP CAMERA
for discreet monitoring

[Ø 10 cm]

Compact construction

The guests at places such as bars, restaurants or coffee shops shouldn't feel uneasy because of the monitoring. The camera has a stylish housing and small dimensions to blend into interiors design, so it doesn't focus clients' attention.

[IR LED 6 m]

Efficient working at low lighting

In restaurant rooms often dominates dim and moody lighting. The camera has a day/night function (IR cut filter), DSS and built-in IR LED, so it generates a high quality image, even when there is a darkness in the room.

[micro SD]

A number of useful functions

Privacy zones function enables to exclude selected areas from the monitoring. Motion detection automatically detects movement in camera's visual field. Alarm e-mail notification function and saving file on FTP, NAS server or on a memory card simplify the control of alarm events.

NOVUS IP | NMS Compatible | ONVIF | 5000 IP SERIES | NOVUS 3 year warranty
