

Vandal Proof IP Camera with Motor-zoom Lens

Image

NVIP-5VE-4502M/F

4000 VSS

FUNCTIONS

COMPLIANCE

KEY FEATURES

Resolution: 5 MPX
 Lens: motorized, auto-focus function, f=2.7
 ~ 13.5 mm/F1.8
 support for Chrome, Firefox, Opera, Safari
 browsers
 D/N function - IR cut filter
 Video content analysis based on Deep
 Learning
 Licence plate recognition (LPR)
 microSD card support
 WDR with double scan sensor
 two-way audio
 Min. Illumination: 0.03 lx (0 lx, IR on)
 IR LED, range up to 45 m
 "Two way power" - when connected to a PoE
 switch, it allows to power the low power
 receiver from the camera's power socket

DIMENSIONS

Image	
Image Sensor	5 MPX CMOS sensor 1/2.7" OmniVision
Number of Effective Pixels	2592 (H) x 1944 (V)
Min. Illumination	0.03 lx/F1.2 - color mode, 0 lx (IR on) - B/W mode
Electronic Shutter	auto/manual: 1/5 s ~ 1/20000 s
Digital Slow Shutter (DSS)	up to 1/5 s
Wide Dynamic Range (WDR)	yes (double scan sensor), 120dB
Digital Noise Reduction (DNR)	2D, 3D
Defog Function (F-DNR)	yes
Highlight Compensation (HLC)	yes
Back Light Compensation (BLC)	yes
Reduction of image flicker (Antiflicker)	yes
Lens	
Lens Type	motorized, f=2.7 ~ 13.5 mm/F1.8
Auto-focus	zoom trigger, manual trigger
DORI	
	for f = 2.7mm - D: 56m, O: 22.4m, R: 11m, I: 5.6m
DORI (Detection, Observation, Recognition, Identification)	for f = 13.7mm - D: 240m, 0: 96m, R: 48m, I: 24m
Day/Night	
Mode	day/night switching: mechanical IR cut filter
Switching Mode	auto, manual, time
Switching Delay	1 ~ 36 s
Visible Light Sensor	yes
Network	
Stream Resolution	2592 x 1520, 2592 x 1944, 2304 x 1296, 1920 x 1080 (Full HD), 2048 x 1536 (QXGA), 1280 x 960, 1280 x 720 (HD), 640 x 480 (VGA), 320 x 240 (QVGA)
Frame Rate	30 fps for each resolution
Multistreaming Mode	surps for each resolution
Video/Audio Compression	H.264, H.264+, H.265, H.265+/G.711
Number of Simultaneous Connections	max. 10
Bandwidth	
	60 Mb/s in total HTTP, TCP/IP, IPv4, HTTPS, FTP, DHCP, DNS, DDNS, NTP, RTSP, RTP, UPnP, SNMP, SMTP, P2P, HTML5
Network Protocols Support	
Camera Configuration	from Internet Explorer, Firefox, Chrome, Opera, Safari browser languages: Polish, English, Russian, and others
Compatible Software	NOVUS MANAGEMENT SYSTEM VSS, NOVUS MANAGEMENT SYSTEM AC
Mobile applications	RxCamView (iPhone, Android)
Video Analytics	
Functions	abandoned object, disppearance, line cross, zone entrance, zone exit, zone violation, multi loiter, pedestrian detection, cross courting, heat may, queue length detection, objects distinguishing, face recognition, vehicle detection, comparing faces, intrusion detection, smart motion detection with objects distinguishing
Other functions	
Privacy Zones	4 video mask type: single color
Motion Detection	yes
Audio Detection	
Image Processing	yes
	yes 180° image rotation, vertical flip, horizontal flip
Prealarm/Postalarm	
	180° image rotation, vertical flip, horizontal flip up to 5 slup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving i
Prealarm/Postalarm System Reaction to Alarm Events	180° image rotation, vertical flip, horizontal flip up to 5 sup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving i the cloud storage
Prealarm/Postalarm System Reaction to Alarm Events Restoring default settings	180° image rotation, vertical flip, horizontal flip up to 5 slup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving i
Prealam/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR)	180° image rotation, vertical flip, horizontal flip up to 5 s/up to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving i the cloud storage via web browser, using reset button
Prealarm/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode	180° image rotation, vertical flip, horizontal flip up to 5 s/up to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving i the cloud storage via web browser, using reset button yes - recognition function implemented in the camera
Prealami/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database	180° image rotation, vertical flip, horizontal flip up to 5 siup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving i the cloud storage via web browser, using reset button yes - recognition function implemented in the camera up to 10000 license plates, on all lists.
Prealam/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates	180° image rotation, vertical flip, horizontal flip up to 5 s/up to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving i the cloud storage via web browser, using reset button yes - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union
Prealam/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control	180° image rotation, vertical flip, horizontal flip up to 5 s/up to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving in the cloud storage via web browser, using reset button yes - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - built-in relay output
Prealam/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base	180° image rotation, vertical flip, horizontal flip up to 5 skup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving it the cloud storage via web browser, using reset button via ves - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - bulk-in relay output recognition datetime, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list"
Prealam/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition	180° image rotation, vertical flip, horizontal flip up to 5 s/up to 30 s e-mail with stachment, saving file on FTP server, saving file on SD card, alarm output activation, saving i the cloud storage via web browser, using reset button yes - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - built-in relay output recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or
Prealam/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base	180° image rotation, vertical flip, horizontal flip up to 5 skup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving it the cloud storage via web browser, using reset button via ves - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - bulk-in relay output recognition datetime, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list"
Prealam/Postalarm System Reaction to Alarm Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition	180° image rotation, vertical flip, horizontal flip up to 5 skup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving it the cloud storage via web browser, using reset button via ves - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - bulk-in relay output recognition datetime, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list"
Prealam/Postalam System Reaction to Alam Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition IR LED LED Number Range	180° image rotation, vertical flip, horizontal flip up to 5 slup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving in the cloud storage via web browser, using reset button yes - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - built-in relay output recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation
Prealami/Postalami System Reaction to Alami Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition IR LED LED Number	180° image rotation, vertical flip, horizontal flip up to 5 sup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving it the cloud storage via web browser, using reset button via veb browser, using reset button via veb browser, using reset button ves - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union ves - built-in relay output recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation
Prealam/Postalam System Reaction to Alam Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition IR LED LED Number Range	180° image rotation, vertical flip, horizontal flip up to 5 sup to 30 s e-mail with atachment, saving file on FTP server, saving file on SD card, alarm output activation, saving it the cloud storage via web browser, using reset button yes - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - built-in relay output recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation 4 45 m
Prealam/Postalam System Reaction to Alam Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognited number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition IR LBD LED Number Range Smart IR	180° image rotation, vertical flip, horizontal flip up to 5 sup to 30 s e-mail with atachment, saving file on FTP server, saving file on SD card, alarm output activation, saving it the cloud storage via web browser, using reset button yes - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - built-in relay output recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation 4 45 m
Prealami/Postalami System Reaction to Alam Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition IE D Number Range Smart IR Interfaces	180° image rotation, vertical flip, horizontal flip up to 5 slup to 30 s e-mail with tarchment, saving file on FTP server, saving file on SD card, alarm output activation, saving it the cloud storage via web browser, using reset button via web browser, using reset button via ueb browser, using reset button ves - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union ves - built- relay output recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation 4 45 m yes (hardware support)
Prealam/Postalam System Reaction to Alam Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Copacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition IE LED LED Number Range LED Number IR IB Interfaces Audio Input/Output	180° image rotation, vertical flip, horizontal flip up to 5 sup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving it the cloud storage via web browser, using reset button via veb browser, using reset button via veb browser, using reset button ves - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - built-in relay output recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation 4 4 S m yes (hardware support) 1 x RCA/1 x RCA
Prealam/Postalam System Reaction to Alam Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognized number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition IR LED LED Number Range Smart IR Interfaces Audio Input/Output Alam Input/Output	180° image rotation, vertical flip, horizontal flip up to 5 sup to 30 s e-mail with tatchment, saving file on FTP server, saving file on SD card, alarm output activation, saving it up to 1000 license plates, on all lists. all countries of the European Union yes - recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation yes - huilt-in relay output recognition date/time, number of recognised licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation up to 1000 license plates, and licence plate, image of recognised licence plate, presence or the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation up to 1000 license plate, saving file on FTP server, alarm output activation up to 1000 license plate, saving file on FTP server, alarm output activation up to 1000 license plate, saving file on FTP server, alarm output activation up to 1000 license plate, saving file on FTP server, alarm output activation up to 1000 license plate, saving file on FTP server, alarm output activation up to 1000 license plate, saving file on FTP server, alarm output activation up to 1000 license p
Prealam/Postalam System Reaction to Alam Events Restoring default settings Licence plate recognition (LPR) Autonomous operation mode Capacity of License Plate Database Types of recognited number plates Barrier control Data recorded in the camera base Reactions for the licence plate recognition IR LBD LED Number Range Smart IR Interfaces Audio Input/Output Network Interface	180° image rotation, vertical flip, horizontal flip up to 5 slup to 30 s e-mail with attachment, saving file on FTP server, saving file on SD card, alarm output activation, saving in wia web browser, using reset button yes - recognition function implemented in the camera up to 10000 license plates, on all lists. all countries of the European Union yes - built-in relay output recognition addritime, number of recognised licence plate, image of recognised licence plate, presence on the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation up to 10000 license plates, on all lists. all countries of the European Union yes - built-in relay output recognition addritime, number of recognised licence plate, image of recognised licence plate, presence on the "white list" or "black list" e-mail with attachment, saving file on FTP server, alarm output activation up to support) up to AGONC/J relay type (max. 12VDC/300mA) 1 x Ethemet - RJ-45 interface, 10/100 Mbitys

	Weight	0.9 kg
128 mm	Degree of Protection	IP 66 (details in the user's manual)
	Enclosure	vandalproof, aluminium, white enclosure type: 4VE-B
	Power Supply	12 VDC, PoE (IEEE 802.3af, Klasa 3)
	Surge protection	TVS 4000 V
	Power Consumption	3 W, 6 W (IR illuminator on)
	Operating Temperature	-30°C ~ 55°C
	Humidity	max. 95%, relative (non-condensing)
	A memory card is required for the face recognition function and license plate recognition functions to work. T	The license plate recognition function is available for cameras with firmware V21.45.8.2.3_xxxx

135 mm (Ø)
