## IR LED Illuminator

Using two NV-IR30/200LED illuminators, depending on their arrangement, it is possible to increase the angle of light up to 60° or operating range up to 240 m

Using three NV-IR30/200LED illuminators, depending on their arrangement, it is possible to increase the angle of light up to 90° or operating range up to 280 m

**Reliability and low energy consumption**  
OSRAM super bright power LEDs with extended life

Live view from CCTV cameras  
in low light conditions  
or even in complete  
darkness!

Adapted to outside working – IP66  
Light sensor with adjustable switching threshold

### NV-IR30/200LED

- 20 High Power LEDs
- Outdoor range up to 200 m
- Angle 30°
- Wavelength: 850 nm
- Adjustable IR LED intensity
- Power supply: 12 VDC/24 VAC
- Power consumption: 42 W
- Operating temperature: -30°C ~ 40°C
- Degree of protection: IP 66

Distribution:
