

NOVUS[®]

IR LED ILLUMINATOR for observation at night

[150 m, 60°]

Live view from CCTV cameras in complete darkness

NV-IR60/150LED illuminates area within a radius of 150 m at angle of 60 degrees. It is equipped with a light sensor with switching threshold regulation and the adjustable IR LED intensity function

[IP 66]

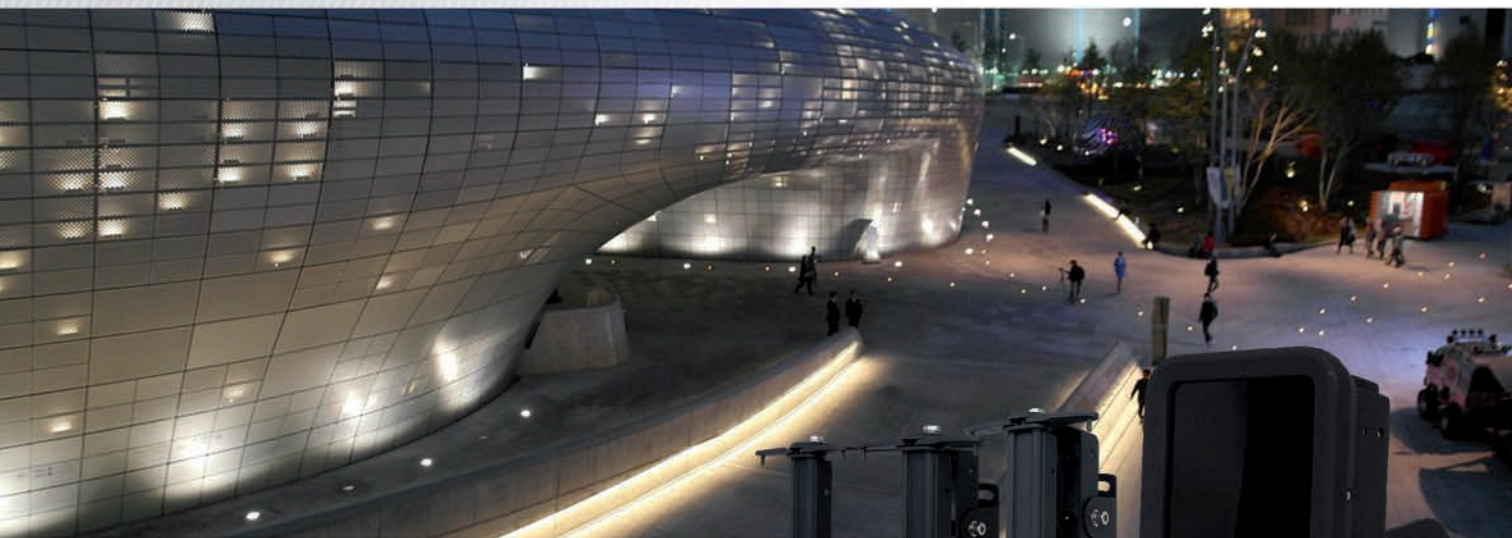

Reliable at any conditions

The illuminator is distinguished by low energy consumption thanks to 20 OSRAM High Power LEDs with extended life and it also has weatherproof enclosure (IP 66)

[compatible
brackets]

Possible to mount in set

Installing 2 or 3 illuminators, depending on their arrangement, using dedicated wall mount brackets (NVB-IR2KIT, NVB-IR3KIT), it is possible to increase the angle of light up to 180° and their operating range up to 210 m
