## PANORAMIC LCD MONITORS for CCTV systems

[16,7 million colors]

### Realistic color reproduction

Monitors have 21,5" screen and 16:9 format. Images are displayed in Full HD (1920 x 1080) and with high quality color accuracy.

[LED backlight]

### Dedicated to permanent operation (24/7)

The monitors are equipped with function preventing from burning-in static images on the LCD panel, which allows continuous operation and extends their lifespan

[speakers 2 x 1 W]

### Convenience

The monitors have built-in stereo speakers 2 x 1 W. Buttons on side/front panel and OSD menu enable monitors calibration and easy switching between signal sources.

NVM NVM-522LCD, NVM-622LCD
