BUILD FUNCTIONAL SYSTEM!

NDR-BA3208, NDR-BA5104, NDR-BA5208, NDR-BA5416, NDR-BA6416

Low costs

[economical]

Hybrid recorders are perfect solution for clients who want to modernize existing analog system at low cost, just by adding new IP cameras. It is also best choice for those investors with limited budget who need cameras with megapixel image quality at strategic locations.

Combination of two technologies

[analog + IP]

The recorders support both analog 700 TVL (960 H) cameras and IP cameras up to 2 MPX (1920 x 1080). Depending on model, recorders have up to 16 analog camera channels and additionally up to 8 channels for IP cameras. The recorders are compatible with the very popular IP 3000 cameras series.

Remote preview on smartphones and tablets

[easy to use]

Application for mobile devices allows you to view camera image on smartphones and tablets with iOS or Android. Recorders menu is the same as in standard analog recorders – the only difference is additional tab for IP cameras management. Thanks to that, the DVR operation is easy and intuitive.
